

### A good memory can be learned!

Would you like to remember the name of a new customer right away? Give lectures without taking notes or learn languages with ease? In his entertaining lectures, a rousing mix of entertainment, show and memory training, brain researcher, artificial intelligence expert and world record holder in remembering names Dr. Boris Nikolai Konrad proves to an enthusiastic audience that anyone can bring their memory to peak performance! "Germany's super brain" Dr. Boris Nikolai Konrad shows you how fascinating and amusing learning can be. The brain researcher talks about artificial intelligences (AI) such as Chat GPT in an amusing and descriptive way. He explains the brain of the future in a playful way. Combined with the latest findings from neuroscience, he answers questions about whether we will remain smarter than robots and how technology is changing the way we think. Whether as a talk guest on ORF, NDR, VOX or ZDF - the likeable brain researcher is a welcome guest and a sought-after brain trainer for actors.

Neuroscientist, Memory world record holder
